

HW5 VERSION #2

Hanyu Yang, Apr 13 at 4:25am

Functionality - 56/56 points

Setup - 15/15:

- +5 reads menu file in correctly
- +5 makes buttons for each menu item
- +5 good layout choice for making buttons appear nicely

Interaction - 20/20:

- +5 transaction pane is well formatted
- +5 transaction tracks items ordered as the buttons are clicked
- +5 transaction keeps total price updated
- +5 user can order more than one of each menu item if desired

Placing Order - 15/15:

- +5 correctly appends order to end of log file
- +2.5 includes a timestamp when appending to log file
- +5 Clear Order button allows user to start this transaction over
- +2.5 Clear Order button does not modify log file

Threading - 6/6:

- +6 using Swing Workers and explaining in readme

Design - 7/7 points

- +3.5 uses and explains one design pattern
- +3.5 uses and explains second design pattern

Style - 7/7 points

- +2.5 javadocs for classes
- +2.5 javadocs for methods
- +2.5 general style, readability

Very nice job! Very user friendly/real-world feeling GUI.

70/70
